

ENG	MAN	PWN
Welcome Welcome to FormosanBank, a large-scale data-driven project dedicated to the preservation and revitalization of the Indigenous Formosan languages of Taiwan. These languages, which form a significant part of the Austronesian language family, are endangered, with some facing the risk of extinction. Our mission is to create a comprehensive, machine-readable corpus of these languages to support linguistic research, language education, and revitalization efforts.	歡迎 歡迎來到 FormosanBank，這個以語料為基礎的大規模計畫，專注於保存與復振臺灣的原住民族語言。這些語言在南島語系中具有相當特殊且重要的地位，但目前正處於瀕危的狀態，其中一些甚至有滅絕的風險。我們的使命是為這些語言創建一個更全面、機器可讀取的語料庫，以促進語言學研究、語言教育及族語復振工作。	djavadjavay djavadjavay a mapuljat imaza itua wanglu i FormosanBank, a pinenetjan mavan a kidjumak tua milimilingan a sengsengan. izuanan a nia sinivarung tu semeqetj sa paljazua tua tja kai se kacalisian i Taiwan. aicu a mareka kinakaian namasan pazangal aravac tucu itua pinenetj a kai na senatau, ljakua tucu na secevung tua gemagalj, aza masanitalj izua uri maqulip a gemagaljan a munday paru tjamapulju anga sikataqaljan a saigu a qivu. avansika aza tja sengsengan imaza mavan a lemingdjelj tua kikai sa maqati a kemeljang tu namakuda a macekaw ca nia vinecikan, nu tjaivililj, teveljeng a kinkiw, patulu katua papigacal a saliman.
Here, you'll find a description of the corpus collected and processed across the 16 official Formosan languages, which includes over 8 million tokens and over 730 hours of audio across the languages (detailed breakdown can be found here). You'd further find a detailed description of how the data is structured and the various way to access it. You can also access the github with all the work and data related to FormosanBank here and the Drive folder with all the audio files from here.	在這裡，您可以找到關於這個收集和處理 16 種原住民族語言語料庫的說明，這些語料涵蓋超過 800 萬個詞彙單位以及超過 730 小時的語音資料（詳細資訊請參見此處）。您還可以詳細了解這些語料結構的說明和存取方式的介紹：載有所有與 FormosanBank 相關的工作及語料的 GitHub 頁面在這裡，而所有語音檔案則存於此雲端資料夾。	imaza itua FormosanBank, maqati sun a kemin tua pakata aicu a qinepu kata pinalimasudj a puluq saka unem a kemacalisian a vecik a pinakeljang, a kemeljang, sa aicu a milimilingan izuanga napaselaw tu alu taiday a kudravan a vecik katua kimaya pitju taiday sa tjelu puluq a tukian ta zaing a ziriu.(tja pacunan ta ziriu pakamaza). utauta dikilu a kemeljang aicu a vinecikan tu kemuda a cemekaw kata semeqetj a sinisiukay : pakatua penuljat a tja sengsengan katua milimilingan itua GitHub a sivecikan. saka aza penuljat a zaing a ziriu sineqetj a pasamaza itua yintuan a ziriu.

ENG	MAN	PWN
FormosanBank FormosanBank serves as a centralized repository for linguistic data across the 16 extant Formosan languages. The project aims to make these resources easily accessible for researchers, educators, and indigenous community members to facilitate research, education, and language preservation efforts. The materials in the corpus include: Texts and Transcriptions: Digitized texts, transcribed audio, dictionaries, and reference grammars. Audio Recordings: A range of spoken language materials, such as Indigenous news, talk shows, traditional stories, and interviews, covering diverse dialects and speaker demographics. Annotated Corpora: Detailed linguistic annotations including word-level glosses, morpheme-level segmentation, phonological transcriptions, and translations in multiple languages. Data collection is ongoing and encompasses a wide array of sources, such as dictionaries, historical documents, Indigenous media, and academic publications. The corpora currently being processed include materials like Amis and Paiwan YouTube videos, Indigenous talk shows, eBooks, and academic texts (see the current list of corpora here). Standardized Format FormosanBank uses a standardized XML format developed by the Pangloss Collection to ensure consistency across the corpus. This format organizes data hierarchically, representing texts, sentences, words, and morphemes, with each level annotated as needed. The structure allows for optional elements like translations and audio	FormosanBank 作為一個集中式的語料庫，涵蓋了 16 種現存的臺灣南島語。該項目旨在讓語言學家、教育工作者和臺灣原住民族能夠輕鬆存取這些資源，促進研究、教育以及語言保存工作。語料庫中的資料包括： 文本與轉寫：數位化的文本、轉錄音頻、字典和參考語法。 語音檔案：各種口語語料，包括原住民族語新聞、電視節目、傳統故事和訪談，涵蓋不同的方言和說話者群體。 注釋語料庫：詳細的語言學注釋，包括詞彙層級的解釋、語素層級的切分、語音轉寫以及多語言的翻譯。 語料收集仍在進行中，包含各種來源如：字典、歷史文獻、原住民族媒體和學術出版物。目前正在處理的語料庫包含了如阿美語和排灣語的 YouTube 影片、原住民族談話性節目、電子書和學術文本等資料（請參見此處的語料庫清單）。 標準化格式 FormosanBank 使用由 Pangloss Collection 開發的標準化 XML 格式，以確保語料庫的一致性。這種格式以層級方式組織數據，顯示文本、句子、詞彙和語素，並視需求對每一層級進行注釋。此結構允許包括翻譯和音檔參考等可選元素，使語料既適用於語言學分析又合適於計算處理。	a FormosanBank mavan a qepuqepuan a ziting sa pinituaziriukan, napapeliaw itua i wanglu a vecik kata lemuung pakatua kemacalisian setaiwan. ulja na madjulu a kidjumak tua marka milimilingan a sitjaracaquan ta kai, sinsi katua maretimalji a kacalisian i Taiwan. saka papilazek teveljeng a kinkiw, tatuluan katua paljazua a sengsengan. aicu a pakatua ziri sedjelj a : sivecikan katua venecik : izua vecikan, lemuung, ziting katua kakaiyan pasata i tingnaw. ziri pakatua lemuung : izua maretimalji a tjaucikel, paru tua sinbung sekacalisian, kamuku itua tilibi, milimilingan katua matjatjaucikel. avansika izua namakakaizua a kinakaikaian katua tjemaucikel a caucau. kaisiaku pakatua vincikan : naljemaluay a kinaisiaku itua kai a caquan, paru tua piniliq a vecik, lemuung sa piliqi katua valiti a zaing a venecik katua liaw a kakaiyan a kaisiaku. nakidjumadjumak anan tua milimilingan tucu a nia sengsengan. namaya tua ziting, a vinecikan itua likisi, a sibung na sekacalisian katua marka sunatj. utauta izuanan nua muqamian katua pinaiwanan itua YouTube, kamuku na sekacalisian, remadadingki a qadupu, kinkiw a sunatj. references, making the data suitable for both linguistic analysis and computational processing. The format includes attributes for essential metadata, such as citations, copyright information, and language codes, ensuring transparency and proper attribution. By adopting a consistent format, FormosanBank facilitates data sharing, analysis, and integration with other linguistic tools. Copyright and Licensing Each resource in FormosanBank has its own copyright and licensing terms, with most materials made available under Creative Commons licenses to encourage reuse and sharing. Licensing details, including copyright holders and usage restrictions, are provided on the individual resource pages. This ensures transparency and respect for intellectual property rights while making the data as accessible as possible. Structure and Accessibility FormosanBank's resources are organized to support both linguistic analysis and community use. The data is structured with: Metadata for easy search and retrieval, including language, dialect, speaker information, and source details. APIs and downloadable datasets to facilitate computational research and integration with other tools. The format's flexibility also allows researchers to annotate data at different levels of granularity, making FormosanBank a valuable resource for projects ranging from basic language documentation to advanced natural language processing. Supporting Language Revitalization FormosanBank is more than a research tool; it plays a crucial role in revitalizing endangered	此格式包含基本的後設資料屬性，如：引用、版權訊息和語言代碼，確保透明度和正確的歸屬。透過採用一致的格式，FormosanBank 促進了語料共享、分析以及與其他語言學工具的整合。 版權與授權 FormosanBank 中的每項資源都有其各自的版權和授權條款，其中大多數資料是根據創用 CC 授權條款提供，以鼓勵再用和共享。授權詳情，包括版權持有者和使用限制，會在各個資源頁面上提供。這樣的安排使語料盡可能地易於存取，也確保透明度和對智慧財產權的重視。 結構與可存取性 FormosanBank 的資源旨在支持語言學分析和社群使用。其語料依據以下方式構成： 便於搜索和檢索的後設資料，如語言、方言、說話者訊息和來源詳情。 提供 API 和可下載的語料集，以促進計算研究並與其他工具整合。 此格式的靈活性也允許研究者不同層級上注釋語料，使 FormosanBank 成為從基本語言記錄到進階自然語言處理項目等多種研究用途的寶貴資源。 支持語言復振 FormosanBank 不僅是研究工具，它在復振瀕危的臺灣南島語方面發揮著至關重要的作用。藉由提供結構良好且可存	aicu a namaljalua a vinecikan izuanan mareka ziriu italadj, sedjelj a sipakelang tua namakuda a sicekaw itua zuma a kinaizuanan, kinelangan a ziriu, bangu nia kai, avansika namakelang tu paqulid a vinecikan. utautu namaljenguaq a paseljavak, kinkiw sa matevelj katua mareka sitjaracaquan a kakaiyan a sengsengan. kidjumak ta ziriu a kindri a ziriu seFormasanBank a penuljat namasi ta kindri a pumacidilj katua hulic pakatua namakuda pavai ta kindri a djemumak pasainu. avansika uli papupicul tua sipuita anan a macekaw katua paseljavak nua timaimanga. Formosan languages. By providing a well-organized and accessible collection of linguistic resources, FormosanBank supports: Educational initiatives: Creating teaching materials and learning resources for use in schools and community programs. Community-driven documentation projects: Assisting local communities in recording and preserving their languages. Digital tool development: Enabling the creation of language technologies like speech recognition, machine translation, and language learning apps. Looking Ahead The project is continually evolving, with plans to expand the corpus, improve data quality, and incorporate new technologies for linguistic research. Collaboration with Indigenous communities, linguists, and technology experts remains a key component of FormosanBank's growth, ensuring that the project remains community-oriented and culturally sensitive.	取的語言資源庫，FormosanBank 支持： 教育措施：創建可在學校和原住民族地區（部落）使用的教學材料和學習資源。 族人主導的記錄專案：協助當地族人錄製和保存他們的語言。 數位工具開發：促進語言技術的創建，如：語音識別、機器翻譯和語言學習應用程式。 展望未來 此計畫正持續擴展，計劃擴充語料庫、提升語料品質，並整合新的語言學研究技術。藉由與原住民族族人、語言學家和技術人士的合作仍然是 FormosanBank 成熟的核心要素，確保該計畫維持以族人為導向並兼顧文化敏感度。	pazangal aravac a pavai tua liaw a picul a kicapilj tua mareka kalakudaing : pinenetjan itua kinituluan : ayatua seman liaw a vinecikan katua caquan a ziriw, sa maqati a macekaw itua gaku katua qinaljan sakamaya. a venkatj pakatua kiruku nua sikataqaljan : pusaladj tua sikataqaljan a lemuing kata semeqetj tua niamadju a kakaiyan. seman vaquan ta turivecan itua tingnaw: namaljenguaq a sengsengan patjara kai a kinkiw. paru kemeljang tua zaing, tjatjauvalit ta kai pasata zuma a kakaiyan katua kikay sitjaracaquan a kitulu tua kai itua tingnaw. papacun tua tjaivilivililj aicu a venkatj nakigetjem a papilazek, venkatj tu papeliaw ta kakaiyan, paljevavaw a semanguaq uta. lja izua kacalisian, sitjaracaquan ta kakaiyan katua sini a matevelj a pusaladj, tjara sinan tjaqayaw a pinuvarung tua kiljivak tua sikataqaljan sa paljazua tua tja cinalivatan i palingulingulj.

ENG	MAN	PWN
Formosan Languages The Formosan languages belong to the Austronesian language family, one of the world's largest and most geographically widespread language groups. While the Austronesian languages extend from Madagascar in the west to Easter Island in the east, Taiwan is home to a significant number of unique languages within this family. These languages are collectively known as the Formosan languages. Origin and Historical Background The Austronesian-speaking people are believed to have first settled in Taiwan around 6,000 years ago, making it one of the earliest regions to develop distinct Austronesian languages. The diversity among the Formosan languages is a	臺灣南島語 臺灣南島語屬於南島語系，其為世界上最大且地理分布最廣的語系之一。南島語系的分布範圍從西邊的馬達加斯加一直到東邊的復活節島，而臺灣正是此語系中許多獨特語言的發源地，這些語言被統稱為臺灣南島語。 起源與歷史背景 據信，南島語族約在 6000 年前首次定居臺灣，使臺灣成為最早發展出獨特南島語的地區之一。在南島民族遷徙至東南亞及太平洋其他地區之前，臺灣一直是語言演化與文化交流的中心，而臺灣南島語的多樣性正見證了這段悠久的歷史。	kakaiyan nua senantaw i Taiwan aza kemacalisian i Taiwan sedjelj a senantaw a kakaiyan, tjajla qacavan sa nasepulingetj i kacauan a kadjunangan, senantaw a kakaiyan na kemasi kaledep a “Madagascar” pasa kacedas a “Easter Island”, mavan imaza i Taiwan sinan kakaiyan nua senantaw a kiniveqacan. sangasan a likisi katua cinalivatan seladenga itjen tu aza nantaw zuku patagilj a kaimaza i Taiwan izuanga 6,000 a cavilj, avansika sipazurung tua namakakaizuazua sa maretimalji a kemacalisian imaza. ka i tjaasangas ta nantaw zuku na

testament to this long history, as the island served as a hub of linguistic evolution and cultural exchange before the Austronesian people began migrating to other parts of Southeast Asia and the Pacific. The Formosan Languages Today Today, there are 16 officially recognized Formosan languages, though their vitality varies greatly. Formosan languages today are spoken only by a portion of Taiwan's indigenous population, constituting ~2% of Taiwan's population. Therefore, many of these languages are considered endangered, with only a few actively spoken in daily life. The speakers often reside in specific Indigenous communities, and revitalization efforts are ongoing to ensure these languages survive for future generations. The Formosan languages include: Amis (Ami) Atayal (Tayal) Bunun Kanakanavu Kavalan Paiwan Puyuma Rukai Saaroa Saisiyat Sakizaya Seediq Thao Truku Tsou Yami/Tao (spoken on Orchid Island) These languages are spread across various regions in Taiwan, with some communities residing in remote mountainous areas, while others are found along the coast. A Legacy of Suppression and Revitalization Throughout history, the use of Formosan languages has been suppressed under different colonial regimes. The most striking example occurred during the Mandarin-only policy from 1949 to 1987, which enforced Mandarin Chinese as the sole official language, significantly impacting the transmission of Formosan languages to younger generations.	臺灣南島語現狀 如今，臺灣共有 16 種官方認定的臺灣南島語言，但其生命力差異甚鉅。目前，臺灣南島語僅由臺灣原住民族一部分人口使用，這些原住民族約佔臺灣總人口的 2%。因此，許多臺灣南島語被認為正處於瀕危狀態，只有少數幾種語言仍在日常生活當中被使用。而這些使用者主要分布於特定的原住民族地區（部落）。為此，復振語言的工作正持續進行，期以確保這些語言在未來世代中能繼續保存。 臺灣南島語包括以下語言： Amis (Ami) Atayal (Tayal) Bunun Kanakanavu Kavalan Paiwan Puyuma Rukai Saaroa Saisiyat Sakizaya Seediq Thao Truku Tsou Yami/Tao (spoken on Orchid Island) 這些臺灣南島語分布於臺灣各個地區，一些位於偏遠的山區，一些則分布在沿海地區。 受壓抑與復振的語言 歷史上，臺灣南島語的使用在不同殖民政權下遭到壓制。最具代表性的例子發生於 1949 年至 1987 年間的單一國語政策，該政策將國語（華語）強制為唯一的官方語言，對臺灣南島語的傳承，尤其是對年輕一代的傳遞，造成無比深遠的影響。	ljesasaw a patjavat i tjuzuma kadjunangan, i Taiwan avananga nuvecekadakadan patjara kai katua bungka, avansika namasi cuacuayan a cinalivatan katua likisi imaza. situcuan a kemacalisian tucuanga, lja izua tapuluq sa unem a kemacalisian i Taiwan a pinenetj na sihu itua hulic, ljakua a milazekan macacadja anan. tucu a senantaw a kakaiyan amin namapulju a kacalisian a cemekaukaw, aicu a mareka kacalisian kimaya nua i Taiwan 2% a caucau, avansika liaw a kakaiyan na senataw itua uli maquip saka abunay, kimaya mapulju a caucau a qivu itua sikavaljutan i qinaljan. avansika uli kemedreng a kiruku sa paljazua a kemacalisian itua tja sengsengan. ulja ca kakaiyan maqati anan a maseqetj nu tjaivilivililj. aza kemacalisian i Taiwan sedjelj a : Amis (Ami) Atayal (Tayal) Bunun Kanakanavu Kavalan Paiwan Puyuma Rukai Saaroa Saisiyat Sakizaya Seediq Thao Truku Tsou Yami/Tao (kimadju a qivu) a kinavadavadayan nua aicu a kemacalisian, savid tu makamaza i mareka ljacadja ta qinaljan katua i ljaviljaving ta ljavek i Taiwan. napaselapai sa papilazek a kakaiyan itua cinalivatan a likisi, aza kai nua kacalisian, ayatua maljian a paljavak a mareka sihu. tiamadju nasema picul a lemivu katua maselapai, parutua aicu a pinenetjan pinaka amin a ita a kai a ciniukukuan kemasi 1949 patje 1987 a caviljan. avansika dikinay anga macekaw tua aicu a kemacalisian tazua. sika tjadjaljaw a maqulip anga za kai, utauta namanan pazangal tu pazurung ta kai itua maqacuvucuvung.
---	---	--

In recent years, there has been a resurgence of interest in revitalizing these languages, driven by government initiatives and grassroots efforts. This includes language education in schools, proficiency exams, immersion programs, and media broadcasting in Indigenous languages. The Indigenous Languages Research and Development Foundation and various local organizations play a vital role in these efforts.	近年來，復振這些語言的興趣逐漸重燃，這一趨勢主要得益於政府倡議和草根運動的努力。這些復振工作包括學校中的語言教育、語言能力認證測驗、沉浸式教學課程，以及原住民族語言的媒體廣播。在這些努力中，原住民族語言研究發展基金會及各個地方組織扮演著重要的角色。	situcuan, patagilj a tja seqetjen a kemacalisian a sengsengan, ayatua napapusaladj na sihu katua papupicul pasatua marka saliman nua sikataqaljan. avansika izua marka sengsengan pakatua kai a paljazua pitua sinupuan i kakitulan, a pitua sisekingan, a pitua tilibi katua seman kamukuan. utauta aza kinateveteveljan nua qinepunepuan tua valjicuq ta sipapilazekan a cemukicuk tua kai nua kacalisian katua zuma a kinateveteveljan namanan pazangal itua aicu a sengsengan.

Contributors We are deeply indebted to the many individuals and organizations who have supported the Formosan Bank project. This initiative would not have been possible without their dedication, expertise, and unwavering commitment to preserving the rich linguistic heritage of the Formosan languages. Indigenous Languages Research and Development Foundation (ILRDF) We are immensely grateful to the Indigenous Languages Research and Development Foundation (ILRDF), based in Taipei, Taiwan, for their invaluable contribution. ILRDF has generously shared their extensive data on Formosan languages with us, enabling our team to push forward in creating a comprehensive, machine-readable corpus. We owe much of our progress to their partnership. Contributors to the Corpus The following have contributed data to FormosanBank. Note that in some cases, the data is still being processed and not yet publicly available. Li-May Sung Indigenous Languages Research and Development Foundation (ILRDF) 劉宇陽 Juan T. F. & Ruan X. Victoria Rau Wilang Yutas Henry Chang Robert Early Funding We are also grateful for the financial support provided by	貢獻者 衷心感謝許多支持 FormosanBank 專案計畫的個人和團體，若沒有他們的奉獻、專業知識和對保存臺灣南島語豐富語言遺產的堅定承諾，這項舉措將無法實現。 原住民族語言研究發展基金會 (ILRDF) 感謝臺灣原住民族語言研究發展基金會 (ILRDF) 的寶貴貢獻。原語會慷慨地分享大量的臺灣南島語語料，使本計畫團隊能進一步的創建一個具全面性、機器可讀的語料庫。 其他相關貢獻者 除了原語會的攜手合作，還要誠摯地感謝以下顧問的專業指導和貢獻： Li-May Sung Indigenous Languages Research and Development Foundation (ILRDF) 劉宇陽 Juan T. Contributing to FormosanBank What must you do? You must agree for your data to be published with the open-source license CC-BY-NC (English Chinese). If you prefer a different open-source license, please discuss with us. What can people do with your data? Anyone can use data in FormosanBank for any purpose, with the following restrictions: Nobody can sell your data. Nobody can sell artificial intelligence trained using your data. Anyone who uses your data must acknowledge your work. As long as they follow those rules, anyone may use your data for: Scientific research Cultural products Creating artificial intelligence Any other purpose Some authors wish to allow for commercial uses. If you wish to allow commercial uses, please	為 FormosanBank 作出貢獻 您必須做什麼？ 您必須同意將您的語料以開源碼授權 CC-BY-NC（英語 華語）進行發布。若您希望使用其他開源碼授權，請與我們討論。 他人可以如何使用您的語料？ 任何人都可以在遵守以下限制的情況下使用 FormosanBank 中的語料： 誰也不能銷售您的語料。 沒有人能銷售以您的語料訓練的人工智慧。 任何使用您的語料的人必須承認您的作品。 只要遵守這些規則，任何人都可以將您的資料用於： 科學研究 文化產品 創建人工智慧 任何其他用途 有些作者希望允許商業用途。如果您希望允許商業用途，請與我們討論。	kemuda itjen a pusaladj tua FormosanBank? tjara ljemaui a su ziri maqati a pavai tua kindri pasusu ta CC-BY-NC a hulic (amilikan ciniukukan) sa sicekaw itua wanglu. nu saljinga sun a cemekaw emaya tua malji mun a kindri parutua open-source ayaya, maqati a mazepzep katua ringraku tjanuamen. kemuda timadju a cemekaw tua nisun a ziri? tjara pasusu tua kakudan nua FormosanBank nu macekaw tua ziri : timaimanga dikanay a paveli tua su ziri. neka a maqati a paveli tua masan nisun a ziri ta AI. tjara kiteku katua pakeljang tua su kindri nua ziri a timaimanga nu macekaw tua su ziri. tjara nupasusu tua marka kakudan, timaimanga maqati a cemekaw tua su ziri itua : kinkiw tua nanemanga vavelian nua bunka lemingdjelj tua AI a sengsengan nanema uli sikuda a sengsengan izua kisanvenecik saljinga tu macekaw seman siubai a sengsengan.

discuss with us. What rights do you keep? You remain the author and owner of your data. FormosanBank will acknowledge you as the author and owner of your data. Anyone who uses your data must acknowledge you as the author and owner of the data. You remain the only person who can sell your data. What is the process? How does this work? We discuss your data with you, along with any constraints you have. These may include: We can help anonymize some part of the data. We can wait to publish the data until after a specific date. We can help look for and fix mistakes in the data. You decide how you want your work to be acknowledged. Should users link to your website? Should they cite a paper of yours? You send us the data. We convert the data into FormosanBank format. We carefully check the data to make sure there are no errors. If you wish, you can also review the data. We publish the data as part of FormosanBank. This ensures your data is shared with the world in a way that aligns with your wishes and protects your rights.	您保留哪些權利？ 您仍然是您的語料的作者及擁有者。 FormosanBank 會承認您是語料的作者及擁有者。 任何使用您資料的人必須承認您是資料的作者及擁有者。 您仍然是唯一可以銷售您的語料的人。 流程是什麼？這是如何運作的？ 我們會與您討論您的語料以及您設置的任何限制條件，這些可能包括： 我們可以幫助匿名化語料中的某些部分。 我們可以等到特定日期後再發布語料。 我們可以幫助查找並修正語料中的錯誤。 您可以決定您的工作如何得到承認。是否希望使用者連結到您的網站？是否希望引用您的某篇論文？ 您將語料提供給我們。 我們將資料轉換為 FormosanBank 格式。 我們會仔細檢查資料，確保沒有錯誤。如果您願意，您也可以審查語料。 我們將語料視 FormosanBank 的一部分進行發布。 以上是為了確保您的語料依照您的意願進行共享，並保護您的權益。	nusaljunga sun tu maqati masan siubay a su sengsengan, tjumalji amen. anema su kindri nu tjaivililj? tisun avananga izua a kindri pakatua su ziri sakamaya. a FormosanBank tjara kiteku tu tisun angata puanema. timaimanga nu cemekaw tua su ziriu tjara kiteku tu nisun a pukindri. amin sun maqati a paveli ta su tjinaucikel a caucau. anema pasusunan? kemuda itjen a pakakuda? tjara nia kivadaqan sun tua pakata su tjaucek kata kemuda cemikilu tua marka su vinarungan tu uli tjara kudai. aicu palemek izua : maqati amen a pusaladj tua maqilja marka vavecikan itua su ziriu. maqati amen a kemaljava itua tiningcu a zikang a pekeljang a pusaladj qemayam kemin sa semanguaq ta pasaliw itua tjaucek. maqati sun a penenetj tua su sengsengan tu kemuda kiteku. saljunga sun tu aza na sacemekaw ta ziriu pacaculu kata su wanglu? tuki saljunga tiamadju dikilu a kipakim tua su marka lunbun ? pavai amen ta su ziriu. uli mapavalit tua su ziriu itua namaljaluy a vinecikan. tjara nia kigaljai a qemayam a su ziriu, mapaqulid tu neka pasaliw. nu pu'ui sun, maqati sun a ljemizaw tua su tjaucek. tjara nia sinan pazangal a su ziriu masanitalj itua FormosanBank sa mazepzep a patjumlj. avansika namaitucu a kai pakatua nia sengsengan. napaljakew tua su manguaqan, sa tjara mapasusu tua su vinarungan.
